

## A14 and M11 essential works

### Here is the latest information on the A14 and M11 essential works

Our contractors Balfour Beatty have continued to make good progress on our A14 and M11 programme of essential works. The main work over the last two weeks has been the replacement of the bridge joints at Girton Interchange across all three carriageways in turn. This has gone well and has been completed ahead of schedule.

Next week we are working on the A14 westbound Huntingdon Rail Viaduct replacing worn bridge joints using off-peak overnight carriageway closures, and also on the A1307 to remove the existing bridge joints.

Here's the current schedule of works that Balfour Beatty are carrying out on behalf of Highways England. Remember schedules may change at short notice, for example due to bad weather.
