Dear Sir/Madam

### **Work to improve the A14 and M11**

We are working on behalf of Highways England to improve the A14 and M11 near you. This work will help to make the road safer and improve the road surface.

Subject to weather conditions, we plan to start the following work on Monday 16 November:

- Resurfacing the road and replacing signs on Impington bridge, which will take around 9 weeks.
- Resurfacing the road and replacing damaged kerbs on the southbound exit of the M11, junction 13 (A1303 to Madingley), which should be done in 1 night.
- Refurbishment of Huntingdon bridge, which will take 4 and a half months.
- Geotechnical repairs to improve drainage and reduce the risk of flooding at A1307 Huntingdon Road, near Grange Farm, and at junction 33 (A1309 at Chesterton) – ongoing until early next year (please note we expect minimal disruption).

Starting on Wednesday 18 November we will also be:

- Resurfacing the road and replacing road markings on the A14 between junctions 29 (Lolworth) and 31 (M11), which will just over 3 weeks.
- Putting up new signs for Addenbrooke's Hospital by junction 11 (Trumpington) of the M11, which will take around 1 week.

We will be working between 21:00 and 06:00, with the M11 work between 22:00 and 05:00. We recognise that more vehicles may travel through your parish at night as a result of the diversion and apologise for any extra noise.

To keep road users at a safe distance from the works, we will need to close the roads to traffic during the night. There will also be some daytime lane closures with 40mph speed limits in place. We will put a clearly signposted diversion route in place and you should allow extra time for your journey.

We would be grateful if you would publicise the works to your parishioners through newsletters and other communications where appropriate.
