Dear Sir/Madam

Essential maintenance on the A14 and M11, including River Cam bridge

We are working on behalf of Highways England to improve the A14 and M11 near you. This work will help to make the road safer and improve the road surface.

Subject to weather conditions, we plan to start the following work within the next few weeks:

- Continuing work to replace the centre reserve vehicle safety barrier on the A14 eastbound between junctions 31 and 34 will resume on Monday 25 January.
- Resurfacing the southbound entry slip of the M11 at junction 13 (Madingley Road), from Monday 25 January.
- Repairing the bridge over the River Cam eastbound at junction 34 (Horningsea), from Monday 1 to Monday 8 February.

Work which we have already started and remains ongoing includes:

- Refurbishment of A1307 Huntingdon Road bridge Cambridge, which will take 4 and a half months in total.
- Geotechnical repairs at A1307 Huntingdon Road, near Grange Farm, and at junction 33 (Milton), ongoing until March 2016 (we expect minimal disruption as the majority of the works are off the road).
- Repairing the road and structure on the A1307 Huntingdon Road heading in to Cambridge at junction 31 (Girton – M11), which should be finished by May.
- Resurfacing the northbound exit slip of junction 13 of the M11 (Bedford), which will take place over 5 consecutive weekends (Friday night to Monday morning) which should be completed by Monday 22 February.

On the A14 we will be working between 20:00 and 06:00, with the M11 work between 22:00 and 05:00. This may result in delays for local road users and through traffic for which we apologise.

Amey

The Dickerson Industrial Estate, Ely Road, Waterbeach, Cambridge, CB25 9PG

We have written to residents and local businesses and residents affected by the works and we would be grateful if you would publicise the works to your parishioners through newsletters and other communications where appropriate.

To keep road users at a safe distance from the works, we will need to close the roads to traffic during the night. We will put a clearly signposted diversion route in place and you should leave extra time for your journey. There will be some daytime lane closures with 40mph speed limits in place while the centre reserve barrier is incomplete in short sections.

We will do our utmost to complete the works as quickly as possible, avoiding disturbance and keeping noise to a minimum. These works, which started in November 2015 will, once complete, result in a smoother and safer A14, better bridges, and clearer directions to Addenbrooke's Hospital.

We will keep you informed about further works. For full details of the works and the diversion routes, please see the enclosed annex.

We want to make your journey as easy as possible during this time. Our e-mail alert service gives details of closures and diversions near you. You can sign up at www.highways.gov.uk/east_subscribe.

If you have any enquiries please contact the Highways England Customer Contact Centre on 0300 123 5000, or by email to: info@highwaysengland.co.uk.

Yours Faithfully,

Stephen Smith,
Project Manager,
For and on behalf of Highways England
