

### **Sponsored Mount Everest Stair Climbing Challenge- all weekend**

As a community can we climb enough stairs to reach the same height as the top of Mount Everest? Everest's summit is a huge 8,844m high. That is 40,200 steps up an average UK stair! How many steps can your children (and you?) climb during the course of the weekend? Whether it is 20, 200 or 2000, every little helps. Please ask all your family and friends for sponsorship by sending them this link <https://www.goldengiving.com/fundraising/mountevereststairclimb>

Once you have completed your steps email [ptfahaslingfield@gmail.com](mailto:ptfahaslingfield@gmail.com) and we will add them to the grand total. (We are hoping to set up a web-page where you can track our progress towards the summit!)
